PROFILE

An experienced Junior Frontend Engineer and UI/UX Designer who has an unusual base in advanced network engineering. Has shown proven ability to create cross-device responsive functions and improve search functionalities while on internship at 99 Group. Has an in-depth knowledge of technical infrastructures, as shown by the development of six networking modules and training of educators all over the nation, with an emphasis on user-centric designs.

EMPLOYMENT HISTORY

Frontend Engineer Intern, 99 Group, Bandung

FEB 2025 — FEB 2026

Core Feature Development: Engineered cross-device responsive features including a scalable HeaderV2, Matchmaker tool, and a dynamic property review section integrated with a Strapi headless CMS.

Search & Interface Optimization: Developed the New Search Result Page (NSRP), advanced filter logic, and Nearby Point of Interest (POI) components to improve the property discovery experience.

Network Engineer (Contract), PT. Info Solusindo Data Utama, Jakarta

JAN 2022 — MAR 2022

Creating network solutions for network architecture and topology
Installation and Integration of Fortinet Firewall to 10 bank branch offices throughout Jabodetabek and Banten Province
Conduct a location survey to determine what solutions should be done

Network Engineer Intern, PT. Media Telekomunikasi Mandiri, Jakarta

SEP 2021 — DEC 2021

Configuring a new Fortinet Firewall to be implemented in the SD-WAN project
Integrate the device into MPLS and SD-WAN infrastructure
Remote installation of devices by collaborating with the onsite team
Device optimization after installation if there are problems in SD-WAN

Network Security Engineer Intern, PT. Mitra Visindo Teknologi, Jakarta

MAR 2021 — AUG 2021

Configured and integrated network devices, including Mikrotik, Ruckus ICX switches, and Mikrotik CCR, into complex networking environments.
Conducted remote and onsite installations and upgrades for various network hardware in corporate and government settings.
Performed VLAN mapping, VPN stabilization, firmware upgrades, and topology mapping for multiple clients.
Conducted preventive maintenance and troubleshooting to ensure optimal network performance.

Computer Science, Bachelor of Computer, BINUS University, Ban-
dung

AUG 2022 — SEP 2026

Organizational Activities:
HIMTI (Informatics Engineering Student Association) Activist (2022-2023)
Nippon Club (Student Activity Unit) Activist (2023-2024)
HIMTI Responsi Division Manager (2023-2024)

Network Engineering Major, SMK Islamic Development Network
(IDN), Bogor

AUG 2019 — JUN 2022

Creating 6 books and blog
1. How to Basic: MikroTik MTCNA
2. How to Basic: MikroTik MTCRE
3. How to Basic: Cisco CCNA
4. Forbidden Redhat: a Redhat Linux Modul
5. Network Fundamental Modul
6. Network Subnetting Modul
7. Cisco CCNP Labs blog

Participating in 4 National Network Engineering Teacher Training as the Trainer, in addi-
tion being invited to SMK Bustanul Ulum in Madura to teach the students there.

LICENSES

IT Support Google, Google

— PRESENT

Ubiquiti Broadband Wireless Admin (UBWA) (Expired), Ubiquiti

JAN 2022 — JAN 2024

MikroTik Certified Traffic Control Engineer (MTCTCE) (Expired),
MikroTik

NOV 2021 — NOV 2024

MikroTik Certified Inter-Networking Engineer (MTCINE) (Expired),
MikroTik

NOV 2021 — NOV 2024

Fortinet Network Security Associate (NSE) 3 (Expired), Fortinet

MAR 2021 — MAR 2023
